IT'S OFFICIAL - WE'RE A B CORP™!

We are delighted to announce that we are a Certified B Corporation®, joining some of the most innovative and inspirational businesses making strides in the global sustainability movement. Since we established our family business in 1995, sustainability has been a core part of our DNA, and we have always believed in business as a force for good. Becoming a B Corp has been a huge challenge and one of our greatest joys, that marks a new chapter in our sustainability journey.

WHAT IS A B CORP?

Being a B Corp™ is underpinned by a philosophy of balancing people, planet, and profit. We are a community of purpose-driven businesses achieving the highest standards of environmental and social practices, leading the global movement for an inclusive, equitable, and regenerative economy.

WHAT BEING A B CORP MEANS TO US.

As a family business in the heart of rural Sussex, our sense of place is strong. We consider it a great honour to be custodians of our beautiful estate, in the South Downs National Park, with a duty to protect and preserve the land and communities within it, for generations to come.

Like us, the B Corp movement measures success not based on profit, but through balancing this with our planet and people. It is so much more than a badge; it's a continuous commitment and a change-making journey towards a more sustainable future for all.
